■ With the Link/2500, Ingenico brings payment acceptance solution to any mobile business.

Highest security

The Link/2500 is PCI-PTS 4.x ready. Its Telium Tetra OS uses the latest cryptographic schemes with future-proof key length.

All payment options

In addition to EMV Chip & PIN and swipe, Link/2500 supports the broadest range of contactless standards allowing NFC couponing and wallet use cases.

Maximized network availability

In one single terminal, Link/2500 proposes a full spectrum wireless connectivity (3G, fallback GPRS, Dual SIM, Bluetooth and WiFi), offering flexibility to mobile merchant, while optimizing communication costs.

Designed for accessibility

Thanks to an integrated speaker which could provide vocal assistance and a real mechanical keypad with raised marking, Link/2500 is built for the most demanding use.

Designed for mobility

Featuring a pocket-sized, light weight and robust design the Link/2500 is the perfect business acceptance point for mobile merchants.

User-friendly and intuitive interface

Featuring an edge design, Link/2500 is user oriented featuring thanks to a bright 2.4" color display and a USB-C connector which can be plugged upside down.

Secure in payment TELIUM Tetra OS

Backed by 30 years of experience and with its user-friendly interface, the TELIUM Tetra Operating System embeds the best security mechanisms to protect transaction privacy and leverage Ingenico's unique portfolio of payment applications.

Digital receipt management

Link/2500 minimizes environmental footprint thanks to its paperless approach enabled by digital receipt while reducing the Total Cost of Ownership.
